Description

Ansell AlphaTec 87-224 Chemi-Pro Gloves

Bi-color double dipped natural rubber and neoprene with flocked lining. Unique dipping process combines neoprene over natural rubber latex for increased protection against a wide range of chemicals. 27 mil thick for extra ruggedness, durability and protection against physical hazards. Diamond pattern provide added drip on wet or dry surfaces. Cotton flock lining absorbs perspiration and increases worker comfort.

Available in sizes 7, 8 9 & 10.

Sold by dozen.
